

THINKING BIG

focused & organized

Now, More Than Ever!

*Now,
more than ever,
you need to
thrive
not just
survive.*

I have a colleague, Suzy Minken, who is a specialist in Feng Shui solutions for realtors. The other day we were talking about how, in this current economic environment, it is More Important Than Ever to be Thinking BIG: Focused & Organized.

Now, more than ever, people are interested in coaching. The demand and need for coaches has never been greater. Why?

- **ANXIETY:** "Mark I'm overwhelmed!" is by far, and there's no close second, the one statement I hear the most.
- **CLARITY:** When responsibilities are rapidly shifting, you need to slow down your thinking to be clear on your priorities. Breathe.
- **STRESS:** Nothing new here, but stir in a global financial crisis and it's quite the recipe for lower productivity and less effectiveness.

So, how can I help you? Here's a powerful solution that rings true now, more than ever: **Think BIG, Be Focused, Be Organized!**

Let's break each of these down:

- **Think BIG:** Be crystal clear on your mission, vision and purpose. E-mail me, mark@hrgoals.com and I'll send you a short exercise that will dynamically and easily help you with your mission, vision and sense of purpose.
- **Focused:** Focused means clarity on your goals, next steps and time frames to take action on those steps. Write down your goals! Don't think it ink it!
- **Organized:** Identify your time wasters, the things that are interrupting, distracting and taking you off track, off your plan. Identifying your time wasters is another short exercise that I can e-mail you.

These three solutions lead to hope, enthusiasm, optimism → **Results!**

Where Can You Be Now? Now, more than ever:

Realtors need to contact Suzy Minken: www.SellYourListingsFaster.com to stage & showcase their listed houses,

Businesses need to take a second look at their marketing plans by contacting www.nurenu.com (they did my site),

Everyone needs to get that massage: www.wholesomemassage.com, and

YOU, Now, more than ever, need **coaching**. Contact me for that: www.hrgoals.com.

This simple, yet powerful, process will navigate you through these challenging times.

Think About 2009
